Good idea. Thanks for the recommendation. Back to you soon to let you know what we'll do.

Ross Brennan, Associate Chief
State and Regional Branch
Water Permits Division
EPA Office of Wastewater Management

Subject: ammonia mtg - tried calling you, sending email - see below suggestion/fill-in/backup
Importance: High

Ross,

Suggestion - since Ginny is out, and two sets of ears are better than one especially since I am still quite puny feeling (and would be a backup if fever doesn't break, comes, goes) -

Before I was assigned ammonia as OWM rep - Nizanna working with Dave and Trish wrote the Ammonia implementation flexibilities document - which is what is considered the NPDES ammonia implementation guidance (to date). So I was thinking that if Nizanna (an attorney too) was available tomorrow and Thursday half day maybe she could join me at the ammonia meeting. Also if this fever doesn't break I think it would be good to have a back up plan. I am trying to get better but its a viral infection.

If you agree with this idea - when you talk to Lars, you need to have Nizanna name put on the "security meeting list" in place of Ginnys or call Chris Hornback.

I cc you on my reply to Trish so you have the Lisa Huff and Betsy Southerlands presentations as of today and on the g: drive under WQ Team see OST criteria - ammonia, selenium, mercury and in the ammonia folder is the OWM briefing we did (Phil Z and I) for Andrew. That would be good to provide to Nizanna and if you don't mind send to me at home here so I can refresh even though its a listening meeting.
